

## WV Frontline Hospital: No-Notice Ebola Readiness Drill

## Participant Evaluation

Hospital Name: \_\_\_\_\_

Your Role/Position in the Drill: \_\_\_\_\_

Please give your opinion on the following statements:

<i>Strongly Disagree</i>	<i>Disagree</i>	<i>Neutral</i>	<i>Agree</i>	<i>Strongly Agree</i>
--------------------------	-----------------	----------------	--------------	-----------------------

*This drill gave me a better understanding of my own responsibilities for activating our hospital's Ebola response protocols.*

1                      2                      3                      4                      5

*This drill helped my hospital to identify changes needed in our response plans and available resources for Ebola response.*

1                      2                      3                      4                      5

*This drill identified gaps in coordinating infectious disease response efforts between our hospital and the county health department.*

1                      2                      3                      4                      5

**Based on drill actions today, list some focus areas or ideas that you feel need to be further considered and refined for your hospital's readiness to receive a suspect Ebola Viral Disease (EVD) patient.**
